TOP-NOTCH FERNS. NEPHROLEPIS WHITMANII

The result of careful propagation from a "Pier-soni" sport. NEPHROLEPIS ELEGANTISSIMA

A selected strain of the lovely Pier-soni Fern, in which the distinguishing pluminess is highly developed; propagating effort having also been closely applied toward compactness and sturdiness. Elegantissima grows barely half as tall as the ordinary Pier-soni, but its fronds are nearly twice as wide.
